3.5. Keyword

Keywords might be used for Queries, subject to clause 3.3 and also for classification purposes within Digimind Social. 3.6 Languages and Countries

Queries might apply to specific Languages and Countries. The maximum amount of Languages per topic is 1 (One). 1 (One) Language might be either a specific Language (English or French or Russian) or “All Languages”. 10. PROCESSING OF PERSONAL DATA

10.1 Role of the Parties

The Parties acknowledge and agree that with regard to the Processing of Personal Data, (i) You are the Data Controller and (ii) We are the Data Processor.

10.2 Processing of Personal Data by the Data Controller

10.2.1 The Data Controller (You) shall, in its use or receipt of Services, process Personal Data in accordance with the requirements of data protection laws and comply at all times with obligations applicable to Data Controllers (including without limitation, Article 24 of the GDPR).

10.2.2 The Data Controller (You) shall Process Personal Data solely for the purposes of the performance, management and monitoring of the Agreement, without prejudice to possible transmission to the bodies charged with monitoring or inspection tasks in application of Union law.

10.3 Processing of Personal Data by the Data Processor

10.3.1 Instructions given by the Data Controller

(i) The Data Processor (We) shall process Personal Data only in compliance with documented instructions from the Data Controller (You), unless required to do so by Union or Member State law to which the Data processor is subject. In this case, the Data processor (We) shall inform the Data controller (You) of that legal requirement before processing, unless the law prohibits this on important grounds of public interest. Subsequent instructions may also be given by the Data controller (You) throughout the duration of the processing of Personal Data. These instructions shall always be documented.

(ii) The instruction shall notably be deemed to include instruction concerning Personal Data transfers to a third country (outside E.U.) if needed for Data Processor (Us) to perform its obligations, unless it is required to do so under the law of the European Union or the law of the member State to which the Data Processor is subject. In this event, the Data Processor will notify this obligation to the Data Controller as soon as it becomes aware of it and before any processing unless the relevant right prohibits such information for important reasons of public interest.

(iii) To the extent that the Data Processor (We) cannot comply with a request from the Data Controller to the processing of Personal Data or where the Data Processor considers such a request to be unlawful, the latter shall inform the Data Controller (You). The Data Processor (We) will not be liable in the event of any claim brought by a third party, including, without limitation, a Data Subject, arising from any act or omission of the Data Processor (Us), to the extent that such is a result of the Data Controller's (Your) instructions.

10.3.2 Nature, duration and purpose of treatment

(i) When a Personal Data processing operation is carried out by the Data Processor (Us) on behalf of the Data Controller (You), the latter explicitly and legitimately determines the nature, purpose and means of the data processing. The controller (You) also defines the purpose and duration of the processing of Personal Data.

(ii) The Data processor (We) shall process the personal data only for the specific purpose(s) of the processing unless it receives further instructions from the Data controller (You).

(iii) The duration of the processing of Personal Data can not exceed the time necessary to achieve the specified objectives. This duration of the processing corresponds to the duration of the data retention.

10.3.3 Privacy by Design

The Data Processor undertakes to take into account, with regard to its tools, products, applications or services, the principles of data protection from the outset and the principles of data protection by default.

10.3.4 Security of Personal Data

(i) The Data Processor (We) undertakes to adopt appropriate technical and organizational security measures to ensure the security of the Personal Data in order to:

- prevent any unauthorized person from having access to computer systems processing personal data, and especially:
 - unauthorized reading, copying, alteration or removal of storage media;
 - unauthorized data input as well as any unauthorized disclosure, alteration or erasure of stored personal data;
 - unauthorized using of data-processing systems by means of data transmission facilities;
- ensure that authorized users of a data-processing system can access only the personal data to which their access right refers;
- record which Personal Data have been communicated, when and to whom;
- ensure that, during communication of personal data and transport of storage media, the data cannot be read, copied or erased without authorisation;
- design its organizational structure in such a way that it meets data protection requirements.

(ii) The Data Processor (We) ensures that persons authorized to process Personal Data undertake to respect confidentiality. In order to fulfill this obligation, the persons authorized to process Personal Data are bound by a non-disclosure agreement.

10.3.5 Documentation and compliance

(i) The Data Controller (You) and the Data Processor (We) shall be able to demonstrate compliance with these Clauses and with the requirements of the General Regulation on the Protection of Personal Data (GDPR), or any other data protection laws, and the obligations arising therefrom and their compliance with it.

(ii) In so doing, the Data Processor (We) shall make available to the Data Controller (You) all information necessary to demonstrate compliance with obligations incumbent on him under

these Clauses and the GDPR including, without limitation, information to allow carrying out of audits of the processing activities covered by these Clauses.

(iii) Such audits or inspections shall be performed during normal business hours and in a way that does not interfere with normal business activities of Data Processor (Us) and, where relevant, Subcontractor of the Data Processor.

10.3.6 Subcontractors of the Data Processor

(i) The Data Processor (Us) shall have the Data Controller's (Your) general or specific authorization to outsource a Subcontractor for carrying out specific Personal Data processing activities on behalf of the Data Controller (You).

(ii) In the case of a general written authorization, the Data Processor (Us) shall inform the Data Controller (You) of any planned changes regarding the addition or replacement of a Data Processor Subcontractor.

(iii) When the Data processor (Us) engages a sub-processor, it shall do so by way of a contract which imposes on the sub-processor, in substance, the same data protection obligations as the ones imposed on the Data Processor (Us) in accordance with the Clauses of this Agreement including, without limitation, the Clause 10 "Processing of Personal Data" for the implementation of appropriate technical and organizational measures provided for in the GDPR.

10.3.7 Assistance to the Data Controller

(i) The Data Processor (We) shall assist the Data Controller (You), through appropriate technical and organizational measures, insofar as this is possible, in fulfilling its obligations under applicable data protection laws such as any disclosure request, or request for information, or to respond to data subjects' requests to exercise their rights (right to be informed, right of access to its data, right to object, right to erasure, right to rectification, right of data portability, right to restriction of processing) that have been made to the Data Controller (You) directly or to Data Processor (Us).

(ii) The Data Processor (We) shall help the Data Controller (You) guarantee security throughout the processing of Personal Data. At this end, the Data Processor (We) commits to establish, in the context of processing Personal Data carried out by the Data Controller (You), all of the technical and organizational measures suitable to provide a level of security appropriate to each nature of processing and to the information of which the Data Processor can have access to.

10.3.8 Notification of Personal Data breach

(i) In the event of a Personal Data breach concerning the Data processed by the Data Processor (Us), the latter shall notify the Data Controller (You) of any Personal Data breach, in a timely manner after having become aware of it. Such notification shall contain, at least:

- A description of the nature of the Personal Data breach including, where possible, the categories and approximate number of data subjects and data records concerned;
- The details of a contract where more information concerning the personal data breach can be obtained;
- A description of likely consequences of the Personal Data breach.

(ii) In the event of a Personal Data breach concerning the Data processed by the Data Controller (You), the Data Processor (We) shall assist the Data Controller (You) in providing all data and details relating to such breach, information enabling the Data Controller (You) to notify the competent Supervisory Authority, and in enabling the Data Controller (You) to remedy such breach.

10.3.9 Termination

Following the completion of the processing of Personal Data on behalf of the Data Controller (You), or, following the termination of the contract between the Data Processor (Us) and the Data Controller (You), the Data Processor (We) undertakes, at the choice of the Data Controller (You), for each type of Personal Data, to return or delete thereof, and to destroy all the existing copies, unless, European regulation or the law of a Member State, to which the Data Processor is subject, requires the retention of such copies.
